

A tip for English teachers

English values words: One word per lesson

In your textbook each chapter has some sounds. Each lesson, include one values word that has the same sound.

Make a display on the classroom wall – every day add the new values word and a quotation about it

For example, **or**
forgive
Forgive and forget.

Very important:

After you have taught the word and told them the meaning, it is important to talk about what the word means to them (this can take less than 1 minute and you can do it in Chinese to make the discussion deeper), eg:

- *What does “forgive” mean?*
- *Why should we forgive people who do something we think is wrong?*
- *Can you tell about a time when you forgave somebody? How did you feel?*

Some other examples:

ea
peace

- *What does peace feel like?*
- *What we can do to have peace in our hearts and our thoughts?*

team

- *In a team we are stronger than working alone. What can you do to be a good team member?*

clean

- *How can we keep ourselves and our environment clean?*
